

CHARLIE CRIST
GOVERNOR

March 5, 2009

Dear Friends:

Welcome to the National Green Energy Council's 2009 Inaugural Florida Legislative Luncheon!

As Governor of the great State of Florida, I am deeply committed to making Florida a national leader in the promotion and implementation of energy efficient technologies and strategies. It is important to recognize that government, private citizens, and entrepreneurs throughout Florida must work together to conserve energy, reduce greenhouse gas emissions, and develop environmentally-sound policies that will protect Florida's natural heritage for future generations. This luncheon will offer attendees a special opportunity to meet and discuss new ideas, learn about climate-friendly businesses, and listen to dynamic speakers talk about new ways and exciting ways to improve our environment.

Thank you to the National Green Energy Council for your hard work and commitment to raise public awareness on energy efficiency and renewable energy. Your dedication has impacted the lives of countless individuals.

Best wishes for a successful Luncheon!

Sincerely,

A handwritten signature in blue ink that reads "Charlie Crist".
