*Green Jobs Corps
Green Awareness Certification Program*

Dear Friends:

On behalf of the State of Connecticut, it is my pleasure to extend heartfelt greetings to all who are gathered at the University of Hartford for the Green Jobs Corps Green Awareness Certification Program.

I would like to take this opportunity to congratulate all of the participants of the Green Jobs Corps Certification Program, the first Green Jobs Corps event to take place in the country. I am proud to see Connecticut's citizens equipping themselves with the important understanding of green concepts, terminology, systems and latest technology. I am confident that everyone in attendance will use the information obtained this weekend to create positive change in fuel and energy efficiency, renewable and sustainable fuel sources and water conservation throughout our state.

I would also like to commend the Green Jobs Corps, Green Energy Council, the University of Hartford and all the volunteers who have dedicated their time to ensure the success of this weekend's wonderful event. It is a privilege to extend my words of tribute to all. Please know that you have my best wishes for a successful and informative program.

Sincerely,

A handwritten signature in blue ink that reads "M. Jodi Rell".
