RE: Anheuser-Busch Energy Conservation Fair

Dear Mr. Avallone:

On behalf of Anheuser-Busch, I would like to thank you and the Green Energy Council for participating in our Conservation Fair held on March 28 at the Newark brewery.

The conservation fair is a day where Anheuser-Busch invites several organizations to our brewery to educate our employees on energy conservation and raise awareness on methods and techniques to conserve resources at home and at work.

The Green Energy Council was a nice addition to our fair this year and we look forward to working with you in the future. We applaud your efforts to promote the protection and improvement of the environment through sustainable energy resources.

Sincerely,

Richard Guindon
Resident EHS&S Manager
